DETAILED ANSWERS WITH EXPLANATION

SECTION A — EASY (Q1–Q15)

Q1. What is the file extension used to save documents in MS Word 2007?

- A) .doc
- B) .txt

✓ C) .docx ← Correct Answer

- D) .pdf

Explanation: The file extension for MS Word 2007 documents is .docx, introduced with the Office Open XML format.

Q2. Which executable file is used to open MS Word 2007?

- A) MSWORD.EXE

✓ B) WINWORD.EXE ← Correct Answer

- C) WORD07.EXE
- D) OFFICE.EXE

Explanation: WINWORD.EXE is the executable file that launches Microsoft Word; it can also be typed in the Run dialog to open Word.

Q3. Which bar is located at the very top of the MS Word window and displays the document name?

- A) Ribbon
- B) Status Bar

✓ C) Title Bar ← Correct Answer

- D) Menu Bar

Explanation: The Title Bar sits at the top of the window and shows the current document name plus three control buttons on the right.

Q4. The Office Button in MS Word 2007 replaces which menu from older versions?

- A) Edit Menu

✓ B) File Menu ← Correct Answer

- C) View Menu
- D) Insert Menu

Explanation: The Office Button in Office 2007 replaced the traditional File menu, providing access to New, Open, Save, Print, etc.

Q5. Which tab in MS Word 2007 contains the Spelling and Grammar check tool?

- A) Home
- B) Insert
- C) View

✓ **D) Review** ← **Correct Answer**

Explanation: The Review tab houses Spelling & Grammar, Thesaurus, and Track Changes — all document reviewing tools.

Q6. What keyboard shortcut is used to insert a Manual Page Break in MS Word?

✓ **A) Ctrl + Enter** ← **Correct Answer**

- B) Ctrl + P
- C) Alt + Enter
- D) Shift + Enter

Explanation: Ctrl + Enter inserts a manual (hard) page break at the cursor position.

Q7. Which tab is used to set page margins, orientation, and spacing in MS Word 2007?

- A) Home
- B) Insert

✓ **C) Page Layout** ← **Correct Answer**

- D) References

Explanation: The Page Layout tab handles all page-related formatting: margins, page orientation, paper size, and spacing.

Q8. The Ribbon was introduced as a new concept in which version of Microsoft Office?

- A) Office 2003
- B) Office XP

✓ **C) Office 2007** ← **Correct Answer**

- D) Office 2010

Explanation: The Ribbon was a key redesign introduced in Microsoft Office 2007 to make commands easier to find.

Q9. What does the Format Painter tool copy from selected text?

- A) Text content only

✓ **B) Formatting only** ← **Correct Answer**

- C) Both text and formatting
- D) Font color only

Explanation: Format Painter copies only the formatting (font, size, bold, colour, etc.) and applies it elsewhere without copying the text itself.

Q10. Which keyboard shortcut activates the Spelling and Grammar dialog box?

- A) F5

✓ **B) F7** ← **Correct Answer**

- C) F9
- D) F3

Explanation: F7 opens the Spelling and Grammar dialog in MS Word. Pressing it again cycles through errors.

Q11. In MS Word 2007, which command is used to replace a word with a similar-meaning word?

- A) Spell Check
- B) Auto Correct

✓ **C) Thesaurus** ← **Correct Answer**

D) Find and Replace

Explanation: Thesaurus (Review tab > Proofing group) provides synonyms and antonyms for a selected word.

Q12. A Watermark in MS Word appears:

A) On top of the text

✓ **B) Behind the document content** ← **Correct Answer**

C) In the header section only

D) At the bottom of each page

Explanation: A watermark is ghosted text or an image placed behind the document content, visible in Print Layout view.

Q13. Which two types of page breaks are available in MS Word 2007?

A) Hard break and Soft break

✓ **B) Automatic and Manual** ← **Correct Answer**

C) Header break and Footer break

D) Section break and Column break

Explanation: MS Word 2007 has two page break types: Automatic (inserted by Word when a page is full) and Manual (inserted by the user).

Q14. Where is a Cover Page always inserted when added in MS Word 2007?

A) At the end of the document

B) After the first page

✓ **C) At the beginning of the document** ← **Correct Answer**

D) Before the last page

Explanation: A Cover Page is always inserted at the very beginning (page 1) of the open document, regardless of cursor position.

Q15. Which tab must be clicked to insert a Table in MS Word 2007?

A) Home

B) References

✓ **C) Insert** ← **Correct Answer**

D) Page Layout

Explanation: Tables are inserted from the Insert tab > Table group.

SECTION B — MEDIUM (Q16–Q25)

Q16. To type the chemical formula H₂O in MS Word, which font formatting option is used for the digit '2'?

A) Superscript

B) Strikethrough

✓ **C) Subscript** ← **Correct Answer**

D) Shadow

Explanation: To write H₂O, the '2' must be formatted as Subscript (below the baseline). Superscript raises text above the baseline.

Q17. Which keyboard shortcut applies Superscript formatting to selected text in MS Word?

A) Ctrl + =

✓ **B) Ctrl + Shift + =** ← **Correct Answer**

C) Ctrl + Shift + S

D) Alt + Shift + S

Explanation: Ctrl + Shift + = applies Superscript. Ctrl + = applies Subscript.

Q18. To password-protect a document during saving in MS Word 2007, after clicking 'Save As' the user should:

A) Click Format, then Security

✓ **B) Click Tools, then General Options ← Correct Answer**

C) Click View, then Protect

D) Click Review, then Protect Document

Explanation: In the Save As dialog, click Tools > General Options to set 'Password to Open' and 'Password to Modify'.

Q19. A footnote in MS Word 2007 appears at:

A) The end of the entire document

B) The beginning of the same page

✓ **C) The bottom of the same page where it is referenced ← Correct Answer**

D) Inside a text box

Explanation: A Footnote reference mark appears in the text and the note itself appears at the bottom of the same page.

Q20. How many types of document views are available in MS Word 2007?

A) Three

B) Four

✓ **C) Five ← Correct Answer**

D) Six

Explanation: MS Word 2007 offers five document views: Print Layout, Web Layout, Full Screen Reading, Outline, and Draft.

Q21. In MS Word 2007, which option under Change Case converts the first letter of every word to uppercase?

A) Sentence case

B) Upper case

C) Toggle case

✓ **D) Capitalize Each Word ← Correct Answer**

Explanation: 'Capitalize Each Word' converts the first letter of every word to uppercase, e.g., 'hello world' becomes 'Hello World'.

Q22. Tab leader characters in MS Word are used to:

A) Set the default tab stop distance

✓ **B) Fill blank space between tab stops with dotted, solid, or dashed lines ← Correct Answer**

C) Align text to the right margin

D) Remove all tab stops from the ruler

Explanation: Tab leaders fill the gap between a tab stop with a repeating character (dots, dashes, or a solid line) to aid readability.

Q23. Which Mail Merge step involves linking the letter document to a saved data file containing names and addresses?

A) Start Mail Merge > Letter

✓ **B) Select Recipients > Use Existing List ← Correct Answer**

C) Insert Merge Field

D) Finish and Merge

Explanation: After starting Mail Merge and choosing 'Letter', the next step is Select Recipients > Use Existing List to link the data source file.

Q24. Spelling errors in MS Word are indicated by which colored wavy underline?

A) Blue

B) Green

✓ C) Red ← Correct Answer

D) Yellow

Explanation: Red wavy underlines = spelling errors. Green wavy underlines = grammar errors in MS Word.

Q25. To move the cursor from one column to another column in a multi-column layout, which key combination is used?

A) Ctrl + Enter

✓ B) Ctrl + Shift + Enter ← Correct Answer

C) Alt + Enter

D) Shift + Tab

Explanation: Ctrl + Shift + Enter inserts a column break, moving the cursor to the next column in a multi-column layout.

SECTION C — HARD / APPLICATION BASED (Q26–Q30)

Q26. In a Word table, you place the cursor in a cell and insert the formula =SUM(ABOVE). Which values does this formula add?

A) All values to the left of the current cell in the same row

✓ B) All values in the cells above the current cell in the same column ← Correct Answer

C) All values in the entire table

D) All values below the current cell in the same column

Explanation: =SUM(ABOVE) adds all numeric values in the cells directly above the formula cell within the same column.

Q27. A table has the following column of numbers: 120, 85, 95, 100. You use =SUM(ABOVE) in the cell directly below 100. What result will the formula produce?

A) 300

B) 380

✓ C) 400 ← Correct Answer

D) 420

Explanation: $120 + 85 + 95 + 100 = 400$. The formula =SUM(ABOVE) adds all values in the column above the result cell.

Q28. In MS Word 2007, the keyboard shortcut Alt + Ctrl + F is used to:

A) Insert an Endnote

B) Open the Find dialog

✓ C) Insert a Footnote ← Correct Answer

D) Apply Full Screen view

Explanation: Alt + Ctrl + F inserts a Footnote at the cursor position. Ctrl + Alt + D inserts an Endnote.

Q29. A student applies =SUM(LEFT) in a table row containing: 40, 60, 80 in columns A, B, and C respectively. The formula is placed in column D. What is the output?

A) 80

B) 140

C) 160

✓ D) 180 ← Correct Answer

Explanation: $40 + 60 + 80 = 180$. =SUM(LEFT) adds all values to the left of the formula cell in the same row.

Q30. Which of the following correctly describes the difference between a Footnote (Alt+Ctrl+F) and an Endnote (Ctrl+Alt+D) in MS Word 2007?

A) Footnote appears at the top of the page; Endnote appears at the bottom

✓ **B) Footnote appears at the bottom of the same page; Endnote appears at the end of the entire document ← Correct Answer**

C) Both appear at the bottom of the page but in different fonts

D) Footnote is for numbers; Endnote is for alphabets

Explanation: A Footnote appears at the bottom of the same page; an Endnote appears at the end of the entire document. Both are used to add references or explanatory notes.
